

**University of Wisconsin – Whitewater
Curriculum Proposal Form # 9**

(Procedures can be found at <http://acadaff.uww.edu/Handbook/Procedures-Form9.htm>)

Continuation of an Inactive Course

(to be used in conjunction with Currency of Catalog Exercise)

The course should be continued. Justification is provided below:

Subject Area and Course Number: EARLYCHD 540

Title: Health and Nutrition: Early Childhood

Justification: Faculty in the dual-licensure program in Early Childhood Education, who supervise the program leading to both regular education and special education licensure at the Early Childhood/Middle Childhood level, are developing an emphasis in early childhood education for the MSE-PD program. This program will restore a graduate-level option to individuals seeking initial licensure as well as teachers seeking additional licensure to meet the growing need for professionals to serve in inclusive four-year-old kindergarten, kindergarten, and preschool education settings. Nutrition and Health: Early Childhood provides critical knowledge related to required Department of Public Instruction outcomes and national professional organization standards for this licensure area.

Updated Course Outline: [Attached]

Updated Bibliography [Attached]

Deletion of an Inactive Course

The course should be eliminated. I verify that this course should no longer be included in any degree program and should be deleted from any in which it currently appears.

Subject Area and Course Number:

Dean of College _____ Date _____

Decision

The course update is administratively approved and will be updated on the curricular database.

- The justification of keeping this course does not meet the requirements for the currency of catalog exercise.
- The AVC's office will have the course deleted from all programs.
